LAWN GRASS SEEDS

For the formation of new lawns, 1 lb. will sow 200 square feet, or 10x20; 100 lbs. will sow one acre. For renovating old lawns, use one-half this quantity.

Due to the drought last summer and the short crop of some varieties these prices are subject to change without notice.

DON'S "EVERGREEN" LAWN GRASS MIXTURE

This is a mixture of the finest American and European grasses best adapted for lawns. It is prepared from our own formula, and is a careful blending of varieties including Bent grasses, making it very suitable to producing the thick growth and velvety appearance so much sought after.

5 lbs. \$3.50; 10 lbs. \$6.50; 25 lbs. \$15.50; 100 lbs. \$60.00

DON'S "STURDY" LAWN SEED MIXTURE

This is a popular low priced mixture and is well suited for various soil conditions. Forms a thick turf in a very short time.

5 lbs. \$2.75; 10 lbs. \$5.50; 25 lbs. \$13.00; 100 lbs. \$50.00

DON'S "SHADY PLACE" LAWN GRASS MIXTURE

This mixture is composed of grasses that are naturally adapted for growing under trees and shaded situations.

5 lbs. \$3.50; 10 lbs. \$6.50; 25 lbs. \$15.50; 100 lbs. \$60.00

DON'S "LAWN RESTORING" GRASS MIXTURE

A mixture of grasses suited to take firm hold and grow quickly in unfavorable situations.

5 lbs. \$3.50; 10 lbs. \$6.50; 25 lbs. \$15.50; 100 lbs. \$60.00

DON'S ALL BENT FORMULA

A special mixture of various bent grasses that will produce a sod equal in texture to the finest putting green.

5 lbs. \$8.50; 10 lbs. \$16.00; 25 lbs. \$35.00

DON'S "LAWN TENNIS" GRASS MIXTURE

Will make a fine green and lasting turf.

5 lbs. \$3.50; 10 lbs. \$6.50; 25 lbs. \$15.50; 100 lbs. \$60.00

DON'S "TERRACE" GRASS MIXTURE

A mixture of grasses with long, interlacing roots, that will bind steep embankments.

5 lbs. \$3.50; 10 lbs. \$6.50; 25 lbs. \$15.50; 100 lbs. \$60.00

DON'S "SEASHORE" GRASS MIXTURE

Composed of grasses suitable for seaside lawns.

5 lbs. \$3.50; 10 lbs. \$6.50; 25 lbs. \$15.00; 100 lbs. \$55.00

DON'S SPECIAL MIXTURE FOR PUTTING GREENS

This is a well balanced mixture of grasses including various varieties of Bent Grasses and Fescues so as to make a smooth even turf. Sow from 75 to 100 lb. for the average sized 90 x 90 ft. green.

25 lbs. \$25.00; 100 lbs. \$90.00

DON'S SPECIAL MIXTURE FOR FAIRWAYS

This mixture is specially blended to assure quick and lasting results, and will give you a close velvety surface that will stand frequent close cutting and trampling.

25 lbs. \$13.00; 100 lbs. \$50.00

GRASS SEED FOR HAY AND PERMANENT PASTURE

These mixtures include the most nutritive and productive species of grasses suitable for laying down light, medium and heavy soils to permanent grass.

The quantity of each variety is carefully regulated, with the object of forming pastures that will yield, in the shortest time after being laid down, the heaviest crop of grass during the whole of each growing season, and in all kinds of weather. Early and late species are included in suitable proportions so that the productive period may be extended as much as possible.

We recommend sowing ten pounds of mixed clovers to the acre in addition to the under-noted mixtures in the spring.

Special Mixtures for Light, Medium and Heavy Soils. 25 lbs. \$12.00; 100 lbs. \$45.00

BON ARBOR SPECIAL LAWN DRESSING

An organic lawn food that should be applied in spring and fall at the rate of 1 ton to the acre or 100 lb. to 2000 square feet.

100 lb. Bag \$3.50; Ton \$60.00

Separate Grasses and Clovers, see page 12

Novelties and Specialties in Flower Seeds

NEW STRAINS OF RUST PROOF ANTIRRHINUMS MAXIMUM TYPE

The prevalent rust disease in Antirrhinums is a trouble for which no effective remedy has been discovered, and efforts have therefore been directed to producing a type which would be immune to its ravages. By a long series of experiments and by careful selection a race has been obtained which is approximately 75 per cent rust-proof, and we are now in a position to offer the five colors named below, also a good mixture. When grown out-doors under the right conditions the large flower spikes attain a height of from three to four feet. Under glass they grow much taller.

Bronze Shades. In the selection of a rust-proof bronze type a number of very attractive shades have appeared varying from yellowish bronze to the very deep shades. Many of these are extremely pleasing.

Crimson. The combination of fiery crimson flowers, dark green foliage and dark plum colored stems which is characteristic of this variety make it most attractive.

Pink. A deep pink which does not fade readily. Large and free flowering.

Yellow. Sends up a great array of glorious golden spikes.

White. Magnificent tall spikes of pure white. An outstanding variety.

Mixed. Including the above as well as many other shades which have not been sufficiently fixed to offer separately.

All of the above Rust-proof varieties \$1.00 per packet.

AGERATUM

Blue Cap. Undoubtedly the best dwarf ageratum yet offered. The flowers are much larger than those of Little Blue Star and of a deeper and richer color. Habit very dwarf and compact, and with small foliage. An excellent variety for edgings and borders.

Pkt. 25c 1/8 oz. \$1.00

BEGONIA

Don's Crimson Bedder. Flowers intense crimson, Shining dark green foliage. Compact habit, about 12 inches high, flowering continuously till cut down by frost. One of the best bedding begonias introduced.

Pkt. 50c

Darling (Semperflorens Type). This novelty of one of the best known German growers we cannot recommend too highly; plants ball shape, dwarf, about 8 inches high; flowers large and of a brilliant carmine rose; effective for beds and borders and well adapted for growing in pots.

Pkt. \$1.00

Carmen (Gracilis) Bright rose flowers carried in clusters well above the deep bronze foliage. Extremely free flowering. Growth habit like Luminosa but the contrast of flowers and foliage make it an outstanding pot plant for specimen or group work.

Pkt. \$1.00

BROWALLIA

Viscosa Compacta "Sapphire." This variety produces a wonderfully compact little plant, not more than 9 or 10 inches high. It is extremely floriferous, sometimes bearing over a hundred dark blue flowers with white eye, suggesting a large flowered lobelia. Admirably suited for indoor decoration.

Pkt. 35c

WILT RESISTING ASTER, BLUE FLAME

WILT RESISTING ASTERS TWO NEW VARIETIES

(For general list of Wilt Resisting Asters see page 8)

Aurora, Golden Sheaf This is the only yellow aster that is wilt resistant. The flowers are fully double with an attractive crest-like center. An excellent variety for cutting as the blooms are of good substance and last well in water. Color, very deep yellow.

Pkt. 25c 1/8 oz. \$1.00

Blue Flame. Bright navy blue. This is an entirely distinct shade from that of any other blue or purple aster ever offered, and is a real acquisition. The large flowers, borne on branching plants, are of the Crego or comet type and are excellent either for cutting or in the border.

Pkt. 25c 1/8 oz. \$1.00

TWO NEW CALENDULAS

Orange Shaggy. A very desirable variety of new and distinct type. The petals are long and deeply fringed, overlapping each other, and impart to the bloom a shaggy and chrysanthemum-like appearance. Color deep orange shading to lighter orange in center. When well grown produces long stems, and forms a plant about 18" high.

Pkt. 50c 1/8 oz. \$2.00

Chrysantha or Sunshine. An exquisite shade of buttercup yellow, with the rounded appearance found in chrysanthemums. Besides adding a splash of golden color to the garden, Chrysantha is a fine cutting variety with long stiff stems. It is thus well adapted to combine with other flowers in vases or bowls.

Pkt. 25c 1/4 oz. \$1.00

COSMOS

New Klondyke, Orange Flare. The same vivid orange hue as the well-known Klondyke, but differs from it in the important respect that it comes into full flower in less than four months from the time of sowing.

Pkt. 25c 1/8 oz. \$1.00

CHRYSANTHEMUM, NIVELLI

TWO NOTABLE ANNUAL CHRYSANTHEMUMS

Coronet (Coronarium type). Single flowers of large size. Cream around the center, with the tips of the petals a bright lemon yellow, producing a delightfully vivid effect. As a greenhouse pot plant may be sown in November to bloom from middle of March onwards. Pkt. 15c

Nivellii. A new annual Marguerite Chrysanthemum forming a shrubby plant 2¼ feet high covered with pure yellow flowers, each 2 to 3 inches in diameter. If sown in the open during April and May it produces a large number of long stalked flowers excellently adapted for cutting in July and August. Pkt. 25c

ANNUAL CANTERBURY BELLS

The Annual Canterbury Bells have proved so popular with our customers that it is with much pleasure we find ourselves this spring in a position to add two new and distinct varieties to our list in addition to those offered last year. All are single flowering, growing from two to two and half feet high, and will flower in six months from seed.

Angelus Bell. A beautiful art shade of deep rose.
Blue Bell. (New). Bright Cambridge blue; extra large flowers.

Liberty Bell. Intense violet-blue.

Mission Bell. (New). Beautiful clear, soft pink.

Mixed. Fine selection of all colors.

All the above Pkt. 25c ⅓ oz. \$1.00

DELPHINIUM

DON'S RE-SELECTED WHITE WREXHAM HYBRIDS

These hybrids are of the true Wrexham type, immeasurably superior to all strains of white hybrids hitherto introduced.

Mature plants produce flower spikes 5 to 6 feet high, bearing individual flowers 2 inches and more across.

They include singles, semi-doubles and doubles with brown, black and gold centers, producing contrasts of striking beauty. Pkt. \$2.00

DAHLIA

Orchid Flowered or Starfish. A single Dahlia of medium height, petals twisted in such a manner as to give a star effect. The colors are pure white, red, orange and canary yellow, the back of the petals usually being of another color. Pkt. 50c

GAZANIA SPLENDENS HYBRIDA

A showy half-hardy perennial, flowers the first year from an early sowing. Plants are low growing, with a quantity of long-stemmed showy daisy-like flowers in brilliant shades of orange, yellow, cream and white. Each flower is marked at the base of the petals with black, brown or green spots. It is fine for summer bedding or border work, doing best in a sunny location. Pkt. 25c

HUNNEMANNIA

Sunlite. Attractive semi-double form of the well-known Mexican Tulip Poppy. The tulip-shaped flowers with their extra band of petals on the outside rather than the inside of the cup give the appearance of being open at all times. The plants are of good habit, about two feet in height, and do best in a sunny position and well-drained soil. Pkt. 25c. ⅓ oz. \$1.00

DON'S WHITE WREXHAM HYBRIDS

KALANCHOE

Globulifera Coccinea (Blossfeldiana). A succulent plant, recommended for greenhouse and conservatory cultivation on account of the long period in which it continues to bloom, and its marvelous color. Sown in February or March, carried along in the open during summer, and again brought inside before frost, it will commence to bloom a year after sowing. The flower resembles a bouvardia in shape, but the color is a brilliant scarlet. It will be found a welcome addition to our winter flowering plants. Pkt. 35c; 3 pkts. \$1.00

LARKSPUR

Rosamond. A new and distinct color in Larkspurs—pure deep rose, the individual florets being large and very double and placed evenly and closely on the stems. It is two weeks earlier than any other stock-flowered variety, and is without doubt one of the best Larkspurs that have been introduced in many years. Award of Merit, Royal Horticultural Society, London, England.

Pkt. 25c $\frac{1}{8}$ oz. \$1.00

MARIGOLD YELLOW SUPREME

TWO VALUABLE MARIGOLDS

Yellow Supreme. Vigorous plants of branching habit bearing large fluffy well-rounded Carnation-like blooms with broad frilled petals of a rich, creamy yellow color. Unsurpassed as a cut-flower or exhibition variety, holding its freshness in water for fully a week to ten days. The foliage is free from the peculiar "Marigold" odor which is so often objectionable. An excellent companion to Guinea Gold. Pkt. 25c; $\frac{1}{8}$ oz. 75c

Guinea Gold. A distinct type of graceful, pyramidal habit, growing 2-2½ feet high, producing flowers 2-2½ inches across, of a brilliant orange, with double ruffled, loose-leaf petals.

Pkt. 15c $\frac{1}{4}$ oz. 50c

POPPY

Fairy. This is a beautiful new Annual Poppy of bushy habit, carrying large single flowers. Colors ranging in Pink, Rose, Salmon, Flame. Blooms of good texture borne on stout stems, and flower will reach five inches across and will last a long time in water as a cut flower. The seed can be sown in boxes and transplanted same as Stocks or Asters. Height 2 ft. Pkt. 35c 3 Pkts. for \$1.00

FRAGRANT GOLDEN GLEAM NASTURTIIUM

NEW DOUBLE FLOWERING NASTURTIUMS

Two years ago it was our privilege to introduce to our customers Nasturtium Golden Gleam, described below, and which has proved to be the most popular floral novelty of recent years. Now we are able to offer a companion variety "Scarlet Gleam" and also "Glorious Gleam Double Hybrids."

Scarlet Gleam. Scarlet Gleam possesses the most intensely dazzling color one could imagine in a flower, even more showy than the vivid golden yellow of Golden Gleam. Similar in habit of growth, the type of doubleness is somewhat different from that of "Golden Gleam." The doubleness of Scarlet Gleam is caused by an overlapping of small petals toward the center. Scarlet Gleam is deeply throated with the outer petals at least twice the size of those of ordinary Nasturtiums. For cutting or garden use Scarlet Gleam has few equals. Pkt. 35c; 3 pkts. \$1.00

Glorious Gleam Double Hybrids. The flowers are fine large well-formed sweet-scented doubles of the same type as "Golden Gleam" which the plant also resembles in habit. The stems are long and carry the flowers well above the lush green mass of the foliage. The color range includes an evenly-balanced blend of brilliant shades of salmon, orange scarlet, cerise, cream, orange, maroon, crimson, and many spotted effects. Pkt. 25c; $\frac{1}{4}$ oz. \$1.00

Golden Gleam. The original double nasturtium, and the most popular novelty of the past two seasons. The large double sweet-scented golden yellow flowers are borne profusely on long stems well above the bright green foliage on the neat semi-dwarf plants. Ideal for garden effect or for cutting.

1 oz. \$1.00; $\frac{1}{2}$ oz. 60c; pkt. 15c

PETUNIA, LACE VEIL

FOUR WORTHWHILE PETUNIAS

Don's Blue Bedder. A very free flowering single petunia of an unusually rich, dark blue shade, growing about one foot high. This variety comes almost 100 per cent true to color. It withstands bad weather admirably and is therefore exceptionally valuable for bedding. Pkt. \$1.00

Giant Double Fringed Heliotrope (new). Blooms range from four and a half to six inches in diameter, the color tone of this Petunia being a beautiful heliotrope. More than half of the blooms may be expected to be of the true Giant Fringed Dougle type, with the remainder consisting of smaller doubles and about five per cent of singles. Petals distinctly veined and shade from light lobelia violet to deep lavender. Pkt. \$1.00

Fimbriata Nana, Lace Veil. A new pure white fringed variety. The bushy plants, about one foot high, are thickly covered with white flowers measuring about 2½ inches across. The finely fringed and sometimes waved edges of these flowers give the impression of a dainty lace gown. Pkt. \$1.00 3 Pkts. for \$2.75

Gottfried Michaelis. The compact bushes, 12 inches high, are covered with daintily fringed bright amaranth red flowers with dark throat, measuring about three inches in diameter. Excellently suited for borders as well as for pots and window boxes. Pkt. \$1.00 3 Pkts. for \$2.75

PANSY

Don's Giant Winter Flowering. This is a greenhouse winter flowering variety, growing three to four feet in height, and requires supports as for carnations. Larger flowers and longer stems than found in any other pansy yet introduced. It includes a wide range of colors and markings, and is a most valuable addition to the winter flowering types. Pkt. \$2.00 3 Pkts. for \$5.00

TITHONIA

Speciosa. An annual of rapid growth and easy culture. The plants, when fully developed, reach a height of 10 feet by 3 to 4 feet in diameter and are richly covered with large, dark green, deeply cut leaves, much like those of the fig tree. In late summer and autumn the whole plant is literally covered with brilliant orange-scarlet flowers. The flowers are 3 to 4 inches across and can be cut with 2 to 3-foot stems; they last a long time in water.

From seeds sown in the frame in March, plants begin to bloom in August; sown outdoors in May, plants bloom in September and continue in either case until frost. Pkt. 25c; ¼ oz. 75c

TRACHELIUM CAERULEUM

An excellent pot plant for the greenhouse. The large showy flowers form enormous heads similar in form to Eupatorium, and of an exquisite blue shade. A fine subject for exhibition purposes or for cutting for indoor decoration. Pkt. 25c; 5 pkts. \$1.00

URSINIA

"Aurora". Emerging from their South African solitudes, the Ursinias have been rapidly making for themselves a place in horticulture. The pretty new form we now offer may be said to occupy an intermediate place between U. anethoides and U. pulchra, with flowers not unlike those of anethoides. The distinctive charm lies in the broad zone of deep crimson red which adorns the center of the bright orange corolla, and renders this novelty a delightful subject for summer bedding.

Pkt. 50c 3 Pkts. for \$1.25

VENIDIUM

Fastuosum. This striking new species from South Africa is a great acquisition as a cut flower. The deep orange daisy-like flowers, 4-5 inches across, have a double row of petals, the upper row marked at the center with a reddish brown zone. The plants grow 2 to 3 feet high, and bloom over a long period of time.

Pkt. 35c 3 Pkts. \$1.00

VERBENA

HYBRIDA GRANDIFLORA

Cerise Queen. A beautiful shade of soft Salmon Cerise, quite new in Verbenas, making a charming addition to this group. It has immense individual flowers one and one-fourth inches in diameter on giant trusses, with fairly long stems, making this Verbena suitable for cutting. It is recommended to all who want a lively new color in Verbenas.

Pkt. 35c 3 Pkts. for \$1.00

ERECTA COMPACTA

Carmine Ball. A beautiful Erecta Compacta Verbena of similar form to Fireball. It forms a perfectly symmetrical plant about ten inches high and twelve inches across and is completely covered with bright Carmine flowers. The plants in our trials easily carry fifty to sixty trusses in bloom on the plant at one time. It is a continuous bloomer and will make a wonderful bedding plant, besides being indispensable for pots and borders.

Pkt. 35c 3 Pkts. for \$1.00

TWO VALUABLE NEW ZINNIAS

Fantasy, Finest Mixed. (Chrysanthemum Flowered). The informal shaggy appearing flowers are very graceful and interesting, and entirely distinct from the more usual formal types. The flowers, composed of a mass of shaggy ray-like petals are large enough to satisfy the desire for a mass of color, yet small enough to lend themselves adaptively to flower arrangement. The colors include brightest shades of reds, yellow and orange, as well as the popular pastel pinks and cream.

Pkt. 25c ½ oz. \$1.00

Desert Gold. The flowers comprise a mixture of the lighter and deeper hues of gold. The plants are from two and a half to three feet in height, bearing a profusion of large, well-formed flowers, which are equally effective under daylight or artificial lights. Those who appreciate the finest in Zinnias will welcome Desert Gold.

Pkt. 25c ½ oz. \$1.00

General List of Choice Flower Seeds

H.A.—Designates Hardy Annuals. These can be sown in the open ground. They flower and mature their seed and die in one year.

H.H.A.—Designates Half Hardy Annuals. For early results sow in the house, greenhouse or hotbed in February to April and transplant to the garden as soon as the weather is settled, or seed may be sown outdoors about the middle of May.

H.B.—Designates Hardy Biennials. Sow in the open border from June to September. The plants Winter without protection, flower and die the second year. Although some varieties will flower the first year if sown very early.

H.H.B.—Designates Half Hardy Biennials. Must have protection during the Winter.

H.P.—Designates Hardy Perennials. They are perfectly hardy and will stand over Winter without protection. With few exceptions they flower the second year after sowing and continue to bloom for many years.

H.H.P.—Designates Half Hardy Perennials. Plants require protection during the Winter.

G.P.—Designates Greenhouse Plants. They should be grown under glass in the greenhouse, conservatory or in the house window.

ANTIRRHINUM, Snapdragons H.H.P.

Splendid half hardy perennials of exquisite form and color, that will bloom from July until frost. Very showy in beds or borders, and a very choice cut flower; extensively forced under glass during the Winter. For early flowers, sow indoors during February or March, but if sown outdoors early in May, will bloom in July.

For new Rust-proof varieties, see Novelties, page 2

Don's Choice Zinnias

The Zinnia is one of the most brilliant, showy and satisfactory of annuals, has long been a general favorite, and is now enjoying a wide popularity, not only for garden decoration, but also for cutting. The seed can be sown early in the hotbed or light window and transplanted, or sown later in the open ground. They come into flower early in the summer and keep on blooming until frost.

Double Dahlia-Flowered

The plants are of strong, vigorous habit, fully 3 feet high, producing mammoth flowers averaging 6 inches across by 3 to 4 inches in depth. The range of colors includes many unusual tones, as the result of continued careful selection.

New and Specially Recommended Varieties of Vegetables

NEW FORCING BEAN, The Prince

Without a question, the finest forcing Bean yet introduced. It is quick to mature and crops enormously. The pods are without strings, meaty, of fine flavor and immense size—11 to 12 inches not being unusual.

Per lb. 75c; 2 lbs. \$1.40

POLE LIMA BEAN, Sunnybrook

Earliness, productiveness, and flavor are the outstanding points of this Bean. It is probably the quickest of all the Pole Limas to mature, and it is covered from ground to top with pods containing 4 or 5 fine Beans of quite the best quality, tender and sweet.

Per lb. 50c; 2 lbs. 95c

BEET Winter Keeper

A late Beet, not of handsome shape, but of exceptionally fine quality, remaining sweet and tender, even when very large.

The roots will keep all Winter and retain their fine quality until Spring. They are almost globe-shaped, tapering somewhat toward the base. The flesh is dark red, and the foliage green.

Oz. 40c.; ¼. \$1.00; 1 lb. \$3.00

BROCCOLI Italian Green Calabrese

There is a growing demand for this vegetable, which is very similar to Cauliflower, both in culture and cooking.

Pkt. 25c., ¼ oz. 65c., 1 oz. \$2 00

BRUSSEL SPROUTS, Brechin Castle

A superior strain of fine quality and a wonderful exhibition variety.

Pkt. 15c., ½ oz. 40c., oz. 75c.,
¼ lb. \$2.50

CARROT, Imperator

A new Carrot of extra sweet and tender quality, with a tapering root 7 to 8 inches long, easily pulled. Flesh of fine deep orange color, with a very faint core.

Pkt. 10c., oz. 25c., ¼ lb. 75c

BEAN, THE PRINCE

CUCUMBER Aldon White Spine

This main crop variety holds its color and firmness and is excellent for slicing. Of tip-top quality, attractive deep green in color, uniform in length, eight to ten inches, very smooth in appearance and with few white spines. This is probably the finest dark green, white spine cucumber to date and good for all purposes.

Pkt. 10c, Oz. 30c, ¼ lb. \$1.00

CAULIFLOWER, Don's First and Best

This is the earliest of all Cauliflowers and is particularly adapted for forcing under glass, and for very early Spring crop outdoors. It is very white, smooth and even in character.

Pkt. 50c., ¼ oz. \$2.50, oz. \$8.00

Early Snowball

The best for general use. A very early variety, producing a head of snowy whiteness, very compact, even, and fine-grained. This fine strain succeeds equally whether grown outdoors or under glass.

Pkt. 25c, ¼ oz. \$1.25, Oz. \$4.00

HYBRID SWEET CORN WILT RESISTANT HYBRIDS

One of the most successful and interesting plant breeding achievements of recent years is the production of hybrid sweet corns that actually yield 25% to over 100% more than the old favorites, and that are amazingly uniform and of wonderful quality.

Plant breeders have learned that by artificially inbreeding strains of corn for some years, then crossing them by controlled pollination, they usually get in the first crop remarkable "hybrid vigor" and also always the same definite and uniform characteristics.

Top Cross Golden Sunshine

Matures about 76 days, ears 7 to 8 inches, 12 rowed.

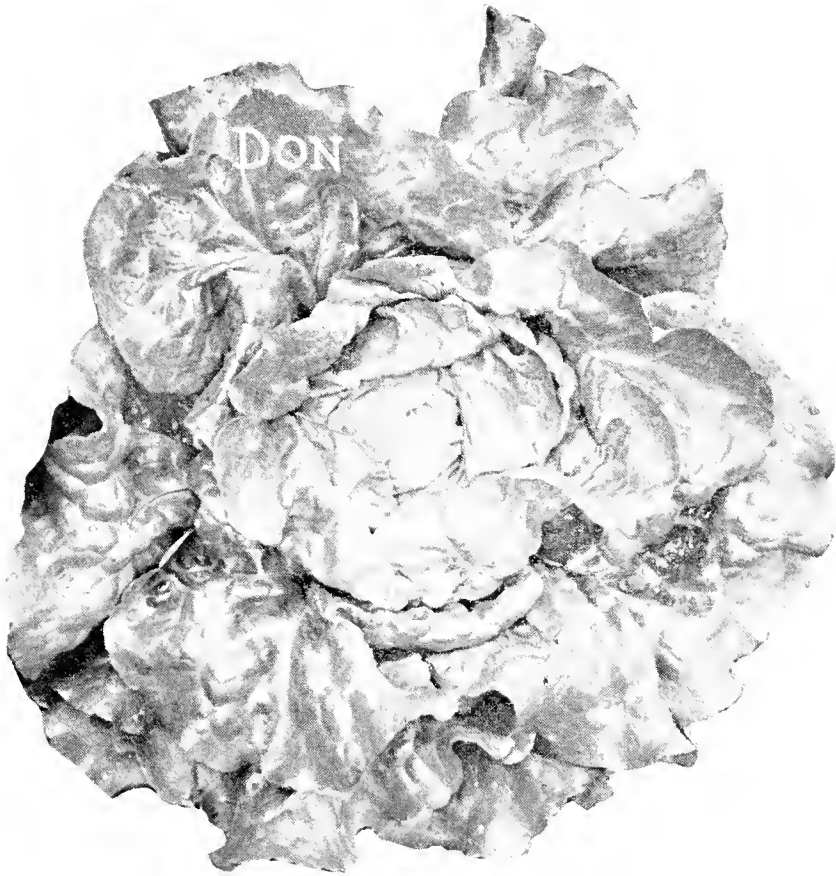

Whipple's Top Cross

80 days, 7 to 8 inches long, 12 to 14 rowed. Yellow.

Golden Cross Bantam

86 days, 8-inch ears, 12 rowed.

All the above—½ lb. 50c., 1 lb. 95c., 5 lbs. \$4.50

LETTUCE, Don's White Boston

LETTUCE, Don's White Boston

The best strain of the butter head type, 10 days earlier than Big Boston. Very large frame and head. Will not tipburn, nor turn red, and will hold several days in the field after maturity before bolting to seed.

Pkt. 15c., oz. \$1.00, $\frac{1}{4}$ lb. \$3.00

LEEK, Don's Exhibition

Long, thick, white stems. To get the best results with this seed, sow early, plant in rich, deep, well-manured land, and water copiously in dry weather; when half-grown, commence giving weak liquid manure. This is a real exhibition variety.

Pkt. 15c Oz. 75c $\frac{1}{4}$ lb. \$2.50

MUSK MELON,**Caroline Clark**

One of the most satisfactory varieties for the private estate or the amateur gardener. Salmon flesh, skin very finely netted. For flavor it would be difficult to find its superior. Early and blight-proof.

Per Pkt. 50c Per Oz. \$2.00

ONION, Ailsa Craig

This variety is used very extensively for exhibition purposes as well as culinary. Will grow very large, often weighing 2 lbs. apiece. Our strain is extra selected English seed specially grown. Pale straw-colored.

Pkt. 25c Oz. \$1.00
 $\frac{1}{4}$ lb. \$3.25

PARSLEY, Triple Curled

This Parsley is remarkable for its extra fine leaves and its dense habit of growth. A good exhibition sort.

Pkt. 10c Oz. 25c $\frac{1}{4}$ lb. 75c

PEPPER, World Beater

One of the very best of the large Peppers—being a cross between Chinese Giant and Ruby King—fruit measuring nearly 6 inches long by 4 inches through; flesh very thick and mild, exceedingly productive.

Pkt. 10c., $\frac{1}{2}$ oz. 40c., oz. 75c

RADISH, Earliest Carmine Forcing

We strongly recommend this variety as the earliest of all the forcing radishes. The roots are globular, bright scarlet in color, and with very small tops.

Pkt. 10c Oz. 25c $\frac{1}{4}$ lb. 75c

SQUASH, Straight Neck

A valued selection from the giant summer crook-neck squash with none of its defects. Fruits which measure 18 to 29 inches in length, are of a deep orange color, intensely warted, and have a deeper flesh which is thicker and more meaty than the old type.

Pkt. 15c Oz. 35c $\frac{1}{4}$ lb. \$1.00

TOMATO

Essex Wonder. This variety is a very heavy yielder. The fruits are thin-skinned, uniform in size, good shape and of excellent flavor. A variety highly recommended for private estate use.

Pkt. 25c $\frac{1}{4}$ oz. \$1.75

Marglobe. A main crop scarlet-fruited variety of globe type. It fruits early and continues to yield until frost. It resists wilt and is immune to rust.

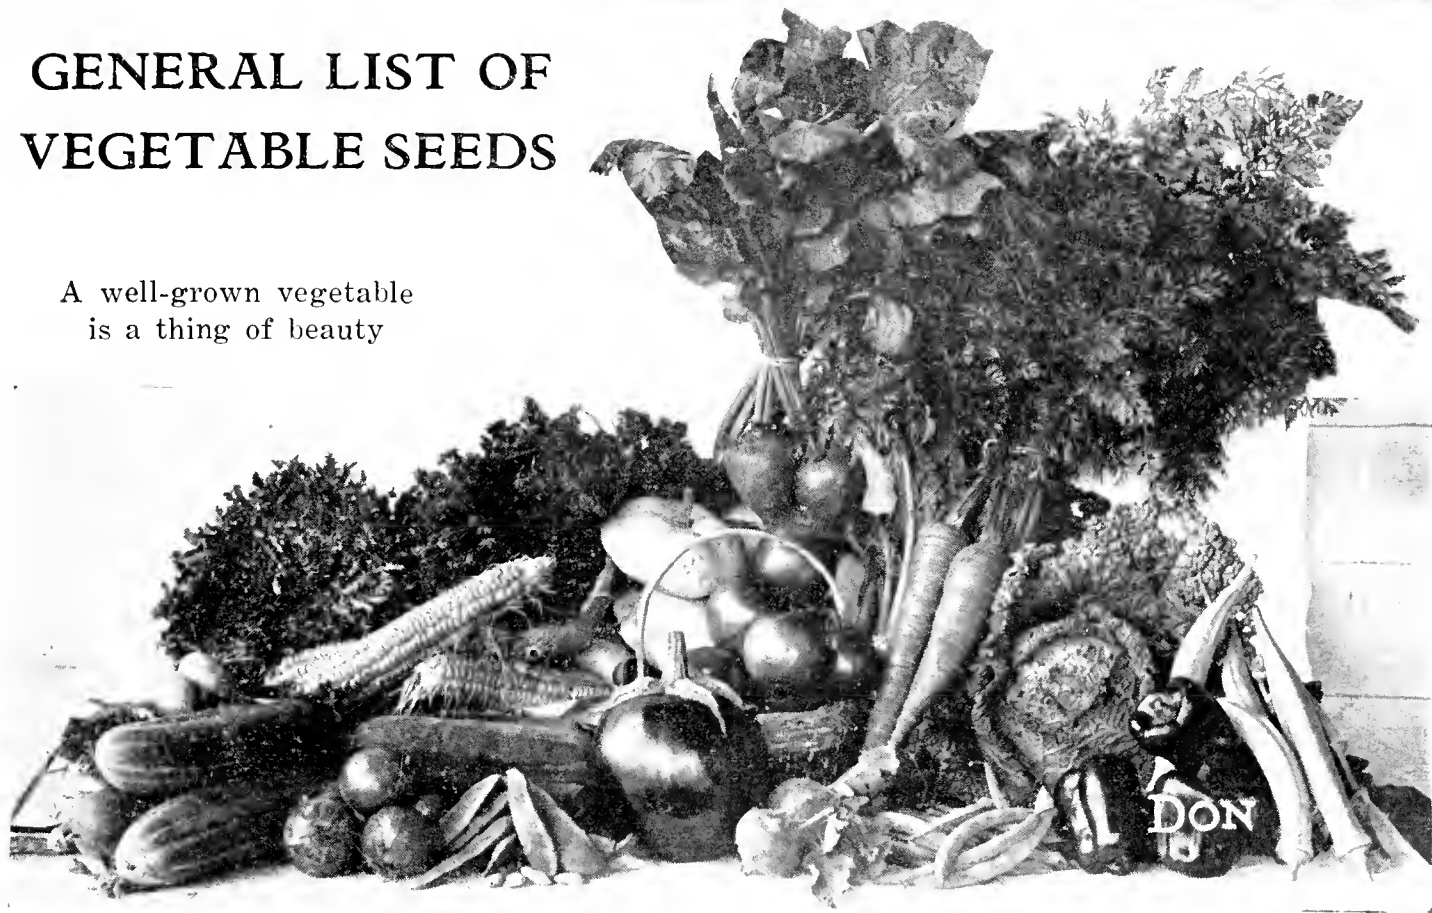

Pkt. 10c $\frac{1}{2}$ cz. 35c 1 oz. 60c

CUCUMBER, Aldon White Spine (Finest White Spine)

Hybrid Perpetual Roses (Dormant)

These are for northern gardens or locations where the winters are very severe. They are not perpetually in bloom as the name indicates. They produce blooms lavishly in June and July; the following varieties also usually produce some blooms in the autumn.

Arrilaga. Vivid pink.
 Bareness Rothschild. Light pink.
 Capt. Christy. Flesh pink, deep centre.
 Frau Karl Druschki. The best white.
 George Arends. Soft pink.
 Gloire Lyenaise. White, yellowish centre.

Henry Nevard. Large crimson.

 Mrs. R. G. Sharman-Crawford. Rosy pink.
 Ulrich Brunner. Carmine red.

Strong two year old field grown plants: 90c each; \$10.00 per doz.; \$80.00 per 100

Climbing and Trailing Roses (Dormant)

They may be grown either on trellis, pergolas or used in covering banks. Most of the roses in this class flower in clusters.

American Pillar. Single flower, brilliant carmine pink.
 Blaze. A true everblooming form of the popular Paul's Scarlet Climber. Most floriferous in June, continuing to produce great sprays of blazing scarlet flowers throughout summer and autumn. Moderately vigorous. Price \$1.50 each.
 Climbing American Beauty. Fragrant flowers of a rich crimson color.
 Dorothy Perkins (Hybrid Wichuraiana). Soft light pink, flowers profusely in large clusters.
 Dr. W. Van Fleet. The long pointed buds are of a rich flesh-pink on long stems; vigorous grower.
 Emily Gray. Golden yellow flowers like Marechal Neil. Very fragrant. Needs protection during the winter.
 Excelsa. Double scarlet-crimson producing very large clusters of bloom. An improvement on Crimson Rambler; very vigorous grower, flowering in July.
 Mary Wallace. Large double vivid pink flowers, strong grower, very hardy.

Golden Climber. (Mrs. Arthur Curtiss James). A hardy golden yellow climber producing long stemmed flowers of hybrid tea type. Price, \$2.00 each; \$20.00 dozen.

Mme. Gregoire Staechelin. (Spanish Beauty) Large delicate pink flowers stained crimson outside, on long stems. Disease resistant.

Max Graf. HR. Large, single flowers of shining pink, freely produced in mid-season. Plant is prostrate and trailing, with glossy, wrinkled foliage. An excellent ground-cover, remaining dark green and beautiful until very late fall. Fine for covering rocks, rock-gardens, etc.

Paul's Scarlet Climber. A vivid scarlet shaded with bright crimson.

Silver Moon. Semi-double, pure white flowers with bright yellow stamens; very profuse bloomer.

The New Dawn. Everblooming Climbing Rose. The color is a soft blush pink. Each \$1.50.

The above Roses \$9.00 per doz., \$65.00 per 100, except where noted.

Standard or Tree Shaped Roses

These ornamental Tree Roses are useful to relieve the flat appearance of a Rose-garden composed entirely of dwarf bushes, and allow a larger number of varieties to be planted in gardens of limited space. They are less susceptible to mildew and black-spot than dwarfs, and many varieties of the Pernetiana type do better on Standards for that reason. A stake on the sunny side of the stem will act as support and protection from hot sun. The height of these Standards runs from 3 to 3½ feet. We can supply these in most of the Hybrid-Tea and Hybrid-Perpetual varieties listed in this catalogue, or at least in similar colors. As they are produced in limited quantities we ask customers to give us a little latitude in the selection of varieties. \$3.50 each, \$36.00 per doz.

ROSA ROULETTI. A midget Rose for the rock garden, less than 6 inches high, of Swiss origin. The flowers are tiny, half inch or so across, pale pink, and produced all season. A very choice and rare little plant, charming for low edgings and adorable in the rock-garden. \$1.00 each \$11.00 per doz.
